## Benefits of Outdoor Time

Winter is here, and we still have our gross motor play outside on days that the temperature is 38 degrees and above. Please remember to bring jackets, scarves, mittens, hats, etc. for outside time.

We all know how much children love playing outside, but are you aware of the benefits of spending time on the playground every day?

### Thank You!

Endless Discoveries would like to extend a heartfelt Thank You to all of the families who donated to our *Local Family in Need* initiative.

We selected an infant baby girl, and her mother is truly grateful for the generosity and kindness shown to her and her baby. Your support made a meaningful difference, and we are so thankful to our community for coming together.

### January Holidays

New Year's Day - January 1  
(*Endless Discoveries will be closed.*)

MLK Jr. Day - January 19

### Staff Anniversaries

Ms. Dani - 10 Years - January 21

When children are running, jumping, climbing, crawling, sliding and playing on riding toys, they are developing gross motor skills, the ability to move the large muscles in the body.

Every child develops at a different rate, and our teachers make use of outdoor play to help children develop strength and agility at every stage of their development.
