### Parenting Classes

How many times have you heard that parenting is the hardest job you will ever do? Parenting is challenging, even when your own parents did an outstanding job raising you. If you were raised in a dysfunctional environment, it's difficult to overcome those barriers and practice healthier parenting techniques.

Parenting education is beneficial in many ways by helping parents feel more competent in their parenting skills, improving child behavior as a result of positive parenting techniques, improving communication skills between parents and children, increasing social connections among parents for providing emotional support, and decreasing the use of physical punishment.

In addition to classes, there are many resources that deal with parenting and family issues. The bestselling book "How to Talk So Kids Will Listen & Listen So Kids Will Talk" by Adele Faber and Elaine Mazlish provides specific advice on being effective with your children.

Road Trippin'

Across the USA

We cannot wait for summer to start! We have in-house field trips planned and out-of-center trips for our school-age children.

Our summer camp activities include science experiments, cooking activities and splash days, and we offer full-time, part-time and drop-in programs through August 11.

We will be celebrating Father's Day on Friday, June 16, with Pretzels and Root Beer To Go for all of our fathers, grandfathers and uncles! Join us at pick up for a photo station and goody bags.
